Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Student Fees and Facilities Revenue and Refunding Bond Program Management's Discussion and Analysis Years Ended June 30, 2021 and 2020

Introduction

The following is an overview of the financial position and changes in net position of the Nebraska State Colleges Student Fees and Facilities Revenue and Refunding Bond Program (the Program). Management has prepared the following discussion and analysis and it is intended to be read in conjunction with the financial statements and related notes that follow this section.

The Board, for the benefit of the Nebraska State Colleges, issues bonds to finance the construction, repair, and maintenance of revenue bond buildings owned and operated by the Board of Trustees of the Nebraska State College System. The Program provides funding for general operations as well as funding for various construction and renovation projects as specified by the individual bond documents. The Program is designed to provide greater flexibility to finance revenue bond projects at the three Colleges. The current revenue bond master resolution was approved in 2002 by the Board.

The financial statements include the following bonded projects for the years ended June 30, 2021 and 2020:

Bonds	Financing Objective
Student Fees and Facilities Revenue Refunding Bonds Series 2012	Refund Series 2002 Bonds for Peru State College and Wayne State College
Student Fees and Facilities Revenue Series 2013	Eagle Ridge Housing and Various Roof Repairs for Chadron State College
Student Fees and Facilities Revenue Refunding Bonds Series 2014	Refund Series 2003 Bonds for Chadron State College
Student Fees and Facilities Revenue Bonds Series 2015	Delzell Hall Improvements at Peru State College
Student Fees and Facilities Revenue Bonds Series 2016	Bowen Hall Improvements at Wayne State College

Student Fees and Facilities Revenue Refunding Bonds Series 2016C	Refund Series 2011 Bonds for Peru State College

Financial Highlights

The financial position of the Program remained favorable during the year ended June 30, 2021, with operating income that provided debt service coverage ratios of 207% for Chadron State College, 186% for Peru State College and 340% for Wayne State College. Debt service coverage ratios were 174% for Chadron State College, 221% for Peru State College and 330% for Wayne State College in 2020 and 146% for Chadron State College, 219% for Peru State College and 280% for Wayne State College in 2019. This performance is in line with expectations for Peru State College and exceeded expectations for Chadron State College and Wayne State College. The debt service coverage ratio required by the Master Resolution is 110%; however, Board policy requires Chadron State College and Wayne State College maintain a minimum 125% debt service coverage and Peru State College maintain a 135% debt service coverage ratio.

Student Fees and Facilities Revenue and Refunding Bond Program Management's Discussion and Analysis Years Ended June 30, 2021 and 2020

The operations in the Program increased in fiscal year 2021 with operating income posting a 311% increase over 2020. The significant increase in operations of the Program in fiscal year 2021 is due to the lost revenue the Colleges experienced in fiscal year 2020 when the COVID-19 pandemic began as well as the Colleges reducing their operating expenditures during unprecedented times. This compares with a decrease of 342.45% from fiscal year 2019 to 2020, when the Colleges moved to an online format in mid- to- late March 2020, and the Colleges issued room and board refunds for students who chose to leave at that time. The Colleges did reimburse the revenue bond programs for most of the lost revenue through the available Coronavirus Aid, Relief, and Economic Security Act (CARES Act) federal funding, which is treated as a non-operating revenue.

The student fee portion of the Program is dictated by a per credit hour fee. For fiscal year 2021 the revenue bond portion of the facilities fee was \$16.75 per credit hour at Chadron State College, \$30 per credit hour at Peru State College and \$19.05 per credit hour (\$255 maximum per semester) at Wayne State College. The revenue bond portion of the facilities fee was \$16 per credit hour at Chadron State College, \$28 per credit hour at Peru State College and \$19.05 per credit hour (\$255 maximum per semester) at Wayne State College for fiscal years 2020 and 2019. Student fee revenue generated through this per credit facilities fee was \$3,612,595, \$3,511,518 and \$3,399,559 for fiscal years 2021, 2020 and 2019, respectively. The overall increase in facilities fee revenue from 2019 to 2021 was \$213,036 or 6.27%.

Overall Program occupancy of residence halls for fiscal year 2021 slightly increased with a 72.8% combined occupancy rate for the fall semester and decreased slightly with a 63.3% combined occupancy rate for the spring semester. In 2020 and 2019, respectively, the combined occupancy rates for the fall semester were 72.5% and 66.8% and for the spring semester were 63.6% and 61.0%.

Using the Financial Statements

The financial statements of the Program include the statements of net position; the statements of revenues, expenses and changes in net position; and the statements of cash flows. These statements are prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, as amended by GASB Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities. The statements are presented on a combined basis to focus on the revenue-producing activities and the trusteed accounts of the Program as a single reporting entity.

The statements of net position include the operating facilities of the Program and the related trusteed accounts of the respective bond issues. The statements of revenues, expenses and changes in net position depict the combined operating revenues and expenses of the Program, which, when combined with the nonoperating revenues and expenses, provide resources for debt service as well as the purchase, construction and renovation of the designated facilities. The statements of cash flows show the sources and uses of cash from operations, investing activities and capital and other financing activities.

Debt service repayment will be entirely through charges for services and facility fees. Debt service payments decreased bonds payable by \$2,115,000 in 2021, \$2,105,000 in 2020, and \$2,060,000 in 2019.

Economic Outlook and Subsequent Events That Will Affect the Future

It is management's current belief that the Program will continue to realize revenues sufficient to cover debt service. Each College budgets expenses prudently while allocating sufficient funds to adequately repair and maintain the facilities so that services can be offered at competitive prices to students.

The Nebraska State College System (NSCS) is utilizing the federal Higher Education Emergency Relief Funds to support students impacted by the Coronavirus pandemic and using the institutional support funds to offset the impacts of COVID-19. As we deal with the ongoing pandemic, the leadership teams, with input from all the appropriate external and internal resources available, will continue to monitor the impacts on students and on the revenue bond system and take any necessary actions.

Upcoming revenue bond and contingency maintenance projects include: Chadron State College Andrews Hall Lighting Retrofit, Crites Hall Elevator Upgrade (installation), Revenue Bond Buildings Asbestos Abatement, Entrance Upgrades, Envelope Repair, Furnishings and Mechanical Room/Infrastructure Upgrades, Facility Master Planning, and Student Center Chiller Replacement and Food Service Equipment and Furnishings; Peru State College Apartments Abatement/Flooring/Furnishings/Repairs and Masonry Tuckpointing, Centennial Complex Roof Replacement, Residence Halls Furnishings and Repairs/Maintenance Upgrades, Evacuation Signs, and Fire Safety Upgrades, and Student Center Food Service Equipment and Furnishings; Wayne State College Bowen Hall Apartment Upgrades, Campus Technology Replacements and Grounds/Equipment/Roof Repairs, Indoor Athletic Complex Masonry Tuckpointing, Morey Hall Restroom Upgrades, Neihardt Hall HVAC Upgrades and Roof Replacement, Rec Center, Residence Halls and Student Center Equipment/Repairs/Furniture/Flooring, and Student Center HVAC Upgrade for the East Penthouse.

Student Fees and Facilities Revenue and Refunding Bond Program Notes to the Financial Statements June 30, 2021 and 2020

Note 1: Description of the Entity and Program

The Board of Trustees (the Board) of the Nebraska State Colleges System (NSCS) was established in 1919 under a provision of the state constitution. The Board has seven members, six of whom are appointed by the governor to six-year terms with legislative approval. The Nebraska Commissioner of Education serves as an ex-officio member. The Board is responsible for policy and oversight of Nebraska's three state Colleges: Chadron State College (established in 1911), Peru State College (established in 1867) and Wayne State College (established in 1910).

The Board, for the benefit of the Nebraska State Colleges, issues bonds to finance the construction, repair and maintenance of revenue bond buildings owned and operated by the three state Colleges (the Colleges). The Student Fees and Facilities Revenue and Refunding Bond Program (the Program) provides funding for general operations as well as funding for various construction and renovation projects as specified by the individual bond documents. The Program is designed to provide greater flexibility to finance revenue bond projects at the three Colleges. The current revenue bond master resolution was approved in 2002 by the Board.

Note 2: Basis of Presentation

The accompanying financial statements of the Program, which include Bond Series 2012, 2013, 2014, 2015 and 2016, have been prepared in accordance with U.S. generally accepted accounting principles, as prescribed by the Governmental Accounting Standards Board (GASB) using the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange transaction takes place. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from nonexchange activities are recognized when all applicable eligibility requirements are met. Nonexchange transactions that are not program specific, investment income and interest on capital asset-related debt are included in nonoperating revenues and expenses.

Student Fees and Facilities Revenue and Refunding Bond Program Notes to the Financial Statements June 30, 2021 and 2020

Note 3: Summary of Significant Accounting Policies

Cash and Cash Equivalents

Cash and cash equivalents held by the Nebraska State Treasurer are deposited on a pooled basis in a State fund or held by the bond trustee in money market accounts with brokers. Income earned by the pool is allocated to the Program based upon average daily balances. From time to time, the Nebraska State Investment Officer, as allowed by statute, participates in securities lending transactions, which make use of amounts on deposit from the Program. Securities lending transactions cannot be specifically identified as amounts on deposit from the Program and, as such, are not included in the financial statements for the years ended June 30, 2021 and 2020.

The Program considers all liquid investments with original maturities of three months or less to be cash equivalents. At June 30, 2021 and 2020, cash equivalents consisted of money market accounts held by the bond trustee and pooled funds invested by the Nebraska State Investment Officer. All amounts are considered restricted, either for debt service or by enabling legislation.

Investments and Investment Income

All investments are carried at fair value. Fair value is determined using quoted market prices. Investment income consists of dividend income and the net change for the year in the fair value of investments carried at fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expense and other changes in net position during the reporting period. Actual results could differ from those estimates.

Accounts Receivable

The Program's accounts receivable consist primarily of charges for student room and board and facilities fees, charges for room and board for various summer camps, a guaranteed bookstore commission and vending contract receivable. The accounts receivable for charges for student room and board and facilities fees are recorded net of estimated uncollectible amounts. The allowance for uncollectible amounts was \$314,442 and \$297,916 at June 30, 2021 and 2020, respectively. Management does not believe an allowance for doubtful accounts is necessary for the other accounts receivable at June 30, 2021 and 2020.

Student Fees and Facilities Revenue and Refunding Bond Program Notes to the Financial Statements June 30, 2021 and 2020

Note 3: Summary of Significant Accounting Policies - Continued

Capital Assets

The Program's capital assets are recorded at cost as of the date of acquisition, or acquisition value at the date of donation if acquired by gift. The Program follows the capitalization policy set forth by the Board for the NSCS. Generally, equipment that has a cost in excess of \$5,000 at the date of acquisition and has an expected useful life of two or more years is capitalized. Also, all land, buildings, infrastructure and construction in progress are capitalized if they are expected to meet the Program's capitalization threshold as dictated by the capitalization policy. Art objects, specimens, artifacts and collections are expensed so long as the items meet three conditions in accordance with generally accepted accounting principles. Asset depreciation is computed using the straight-line method over the estimated useful life of each asset beginning with the month of purchase. The following estimated useful lives are being used by the NSCS:

Buildings and improvements 25-50 years Infrastructure 10-30 years Furniture, fixtures and equipment 3-10 years

Compensated Absences

The NSCS's policies permit most employees to accumulate vacation benefits. Staff earn 12 to 25 days of vacation each year and may accrue vacation up to the maximums established in Board policy and/or in the respective bargaining agreements. An employee's accrued vacation is paid out to the employee upon termination. Expense and the related liability are recognized as vacation benefits when earned whether the employee is expected to realize the benefit as time off or cash. In addition, professional and support staff receive a cash payment of one-fourth of accrued sick leave upon retirement from the NSCS. Expense and the related liability for sick leave benefits are recognized when earned to the extent the employee is expected to realize the benefit in cash determined using the termination payment method. Sick leave benefits expected to be realized as paid time off are recognized as an expense when the time off occurs.

Unearned Revenue

Unearned revenue represents facilities fees collected in advance for the summer term for which the College has not met all the applicable eligibility requirements and longevity bonus revenues and investment (improvement) revenues from food service and/or vending contractors, which are being amortized over the life of the contracts.

Student Fees and Facilities Revenue and Refunding Bond Program Notes to the Financial Statements June 30, 2021 and 2020

Note 3: Summary of Significant Accounting Policies - Continued

Income Taxes

As a state institution, the income of the NSCS and the Program is generally exempt from federal and state income taxes under Section 115(a) of the Internal Revenue Code and provisions of state law. However, the NSCS and the Program is subject to federal income tax on any unrelated business taxable income.

Deferred Outflows of Resources and Deferred Inflows of Resources

A deferred outflow of resources is a consumption of net position by the Program that is applicable to a future reporting period and a deferred inflow of resources is an acquisition of net position by the Program that is applicable to a future reporting period. Both deferred inflows and outflows are reported in the statements of net position but are not recognized in the financial statements as revenues and expenses until the period(s) to which they relate. Deferred outflows of resources of the Program consist of unamortized bond refunding amounts. The Program has no deferred inflows of resources as of June 30, 2021 and 2020.

Classification of Revenues and Expenses

The Program has classified its revenues and expenses as either operating or nonoperating according to the following criteria:

Operating revenues include activities that have the characteristics of exchange transactions, such as 1) student tuition and fees, net of waivers and 2) sales and services of auxiliary enterprises. Operating expenses represent the full cost of providing the services and goods associated with operating revenues. These expenses are accrued when incurred and measurable.

Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, investment income, and federal grants. Nonoperating expenses include debt service expenses.

Application of Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for use, it is the Program's policy to use restricted resources first, and then unrestricted resources as they are needed.

Net Position

Net position of the Program is required to be classified into three components – net investment in capital assets, restricted and unrestricted. The Program has no unrestricted net position component as any Program revenues not restricted by other sources are restricted for the purpose of the operation and maintenance of the Program per enabling legislation. The Program's net position is classified as follows:

Student Fees and Facilities Revenue and Refunding Bond Program Notes to the Financial Statements June 30, 2021 and 2020

Note 3: Summary of Significant Accounting Policies - Continued

Net Position - Continued

The net investment in capital assets component of net position represents the total investment in capital assets, net of accumulated depreciation and outstanding debt obligations related to the acquisition, construction or improvement of those capital assets. Deferred outflows and inflows of resources that are attributable to the acquisition, construction or improvement of those assets, if any, are included in this component of net position. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets.

The restricted expendable component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), contributors, or law or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Waivers

Room and board are reported net of institutional waiver allowances in the statements of revenues, expenses and changes in net position. The institutional waivers on room and board for the Program for the years ended June 30, 2021 and 2020, were approximately \$2,492,000 and \$2,171,000, respectively.

Revisions

Certain revisions have been made to the 2020 financial statements to conform to the 2021 financial statement presentation. These revisions had no effect on the change in net position.

Note 4: Deposits, Investments and Investment Income

Deposits

All Program deposits are either insured or collateralized. By state statute, the State Treasurer is required to ensure that all state funds are either insured by the Federal Deposit Insurance Corporation (FDIC), collateralized by securities held by the cognizant Federal Reserve Bank or invested in U.S. government obligations. The Program's deposits with the State Treasurer are pooled with the funds of other state agencies and then, in accordance with statutory limitations, deposited in banks or invested as the State Treasurer may determine. Interest on funds held by the State Treasurer is periodically disbursed to the participating agencies. These funds are considered to be cash and cash equivalents which are available for expenditures as needed.

Student Fees and Facilities Revenue and Refunding Bond Program Notes to the Financial Statements June 30, 2021 and 2020

Note 4: Deposits, Investments and Investment Income - Continued

Deposits - Continued

At June 30, 2021 and 2020, cash and cash equivalents of \$15,430,148 and \$12,654,056 on the statements of net position represents the Program's equity position in the State Treasurer's Short-term Investment Pool (STIP) funds. Additional information on the deposit and investment risk associated with STIP funds may be obtained from the State of Nebraska's Annual Comprehensive Financial Report (ACFR). An electronic version of this report is available by accessing the Nebraska Auditor of Public Accounts website (www.auditor.nebraska.gov) and clicking "APA Reports Issued."

Cash Equivalents

At June 30, 2021 and 2020, the Program has money market mutual funds and cash accounts held by the bond trustee totaling \$8,262,343 and \$9,096,462, respectively, which were entirely covered by collateral in the trustee's name. All money market mutual funds are redeemable in full immediately and are shown as restricted cash and cash equivalents in the statements of net position as they are held for the Program's debt service and expenditures. The money market mutual funds are rated AAAm by S&P and Aaa-mf by Moody's.

Investments

Management of Program funds is delegated to the bond trustee as appointed by the Board. The bond trustee invests Program funds in accordance with the bond resolution.

At June 30, 2021, the Program had the following investments and maturities:

	Maturities in Years								
	Fair Value		Less than 1		1-5		6-10		
Investment type									
Fixed income									
Negotiable certificates of deposit	\$	504,765	\$	504,765	\$	-	\$	-	_

Student Fees and Facilities Revenue and Refunding Bond Program Notes to the Financial Statements June 30, 2021 and 2020

Note 4: Deposits, Investments and Investment Income - Continued

At June 30, 2020, the Program had the following investments and maturities:

				N	/ latur	ities in Yeaı	rs	
	F	air Value	Le	ss than 1		1-5		6-10
Investment type								
Fixed income Negotiable certificates of deposit	\$	762,532	\$	247,843	\$	514,689	\$	-
Total	\$	762,532	\$	247,843	\$	514,689	\$	-

The Program categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

All debt securities are classified in Level 1 of the fair value hierarchy and are valued using prices quoted in active markets for those securities. Negotiable certificates of deposit are classified in Level 2 of the fair value hierarchy description of valuation technique and are valued using quoted prices for markets that are not active.

Interest Rate Risk. The Program does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. The bond resolution allows investment of Program funds in various securities and obligations including U.S. government and U.S. agency obligations; bank demand deposits; bonds, notes or other obligations of any agency or instrumentality of the U.S.; bank repurchase agreements; shares of any open-end diversified management investment company; or within the State Treasurer's Short Term Investment Pool (STIP). The Program's investments in negotiable certificates of deposit are unrated.

Concentration of Credit Risk. The Program places no limit on the amount that may be invested in any one issuer. As of June 30, 2021 and 2020, the Program's investments in negotiable certificates of deposit were in one issuer.

Custodial Risk. For an investment, custodial risk is the risk that, in the event of failure of the counterparty, the Program will not be able to recover the value of its investments that are in the possession of an outside party. The Program does not have a formal policy for custodial credit risk. All securities are held by the investment's counterparty, not in the name of the Program.

Student Fees and Facilities Revenue and Refunding Bond Program Notes to the Financial Statements June 30, 2021 and 2020

Note 7: Revenue and Refunding Bonds Outstanding

Under the bond resolutions for the Student Fees and Facilities Revenue and Refunding Bond Program, revenues and earnings derived from operations of all revenue facilities and special student fees are pledged for payment of the principal and interest amount of the bonds. The bonds are not obligations of the State of Nebraska, and no tax funds shall be appropriated for payment of principal and interest.

The official statements define an event of default as missing principal and/or interest payments, discontinuation, unreasonable delay, or failure to construct the Project or acquire the facility, promptly repair destroyed or damaged buildings and facilities, or the Board become insolvent. In the event of such default, the outstanding bonds contain a provision stating that the registered owners of 25% of the aggregate principal amount of the Bonds then outstanding may declare the principal of all bonds then outstanding to be due and payable immediately.

Note: Occupancy numbers are based on occupancy levels at the end of each term and do not reflect changes that may occur during the course of each term. The occupancy percentages are based on the number of beds occupied, as the rooms were designed. In many cases, students elect to pay a higher rate for a two-bed room and occupy it as a private room. The "room occupancy" rate, which is higher at all three colleges than the bed occupancy percentages, gives a clearer picture of the situation that exists.
