November 12, 2020

## ACTION: Approve Fall Enrollment Reports

The 2020 Fall enrollment reports provide the Board an overall picture of student enrollments across the Nebraska State Colleges. The report is based upon census data as of October 15th and is consistent with IPEDS submissions and definitions to the extent possible. Total headcount for Fall 2020 has remained steady at 8,434, a slight increase of $.33 \%$ from 2019. System-wide FTE for 2020 is 6,284 , an increase of $1.2 \%$. Retention has increased by $1 \%$ to $71 \%$ system-wide.

The System Office recommends approval of the Fall Enrollment Reports.

## Nebraska State Colleges

2020 Fall Enrollment Report
The Fall Enrollment report is intended to provide an overall picture of student enrollment across the Nebraska State Colleges. The report is based upon data as of October $15^{\text {th }}$ and is consistent with IPEDs submissions and definitions to the extent possible. This report reflects only Fall 2020 enrollments, and does not capture unduplicated enrollments for spring and summer terms.

## Overall Enrollment

From 2019 to 2020, overall headcount has remained relatively steady with a slight increase of .3\%. Overall FTE has increased by $1.2 \%$. Additionally, the System as a whole has experienced an increase in its retention rate from 70\% in 2019 to 71\% in 2020.

Decreases at CSC and PSC in both headcount and FTE were offset by increases at WSC of $8 \%$ in headcount and 6.4\% in FTE.

## Retention

The System has experienced an increase of $1 \%$ in its overall retention rate from $70 \%$ in 2019 to $71 \%$ in 2020. According to the most recent report, The Condition of Education 2020, the retention rate for public open admissions 4-year institutions from 2017 to 2018 was only $63 \%$ while the overall retention rate for all open enrollment 4-year institutions (private non-profit, public, and private for-profit) was only $62 \%$. Decreases at CSC and PSC were offset by a $5 \%$ increase in retention at WSC.

## Residency

Residents are those students whose state of residence is listed as Nebraska. Non-Residents include any students whose state of residence is listed as any state other than Nebraska as well as all international students.

The overall percentage of resident students increased from $73 \%$ to $74 \%$ from 2019 to 2020. Of the total undergraduate students, the percentage of resident students showed a slight increase of .5\% to $74.8 \%$. However, the percentage of graduate students who are residents increased by $2 \%$, from approximately $69 \%$ in 2019 to 71\% in 2020.

## Delivery

With respect to the delivery of courses, students may be duplicated if they are taking a course in more than one delivery type.

The number of on-campus students includes those students who are taking at least one credit on campus. The number of online students includes those students who are taking at least one online course, regardless of other course enrollment, that requires the students to participate and interact with one another and with their instructors online.

The overall distribution of students taking courses on campus and online has experienced a slight change. In 2019, 60\% of students were taking at least one course on campus and $49 \%$ of students were taking at least one online course. In 2020, 60\% of students were taking at least one course on campus and $54 \%$ were taking at least one online course. Approximately $92 \%$ of graduate students are taking at least one online course while a smaller but still significant percentage of undergraduate students (45\%) take at least one online course.
